Re: application for the position of Social Media Content Creator

Dear Hiring Manager,

I am writing to apply for the Social Media Content Creator position at Addmind. With a Bachelor's degree in Digital Marketing and Communication, four years of experience in social media management and brand activation, and a recent role in Dubai working with luxury houses, I am excited by the opportunity to shape the social presence of the region's leading hospitality and lifestyle group while supporting PR, influencer relations and guest communication.

At BRANDAID in Dubai, I managed campaigns and activations for luxury brands and coordinated collaborations with influencers and ambassadors from selection and invitation to deliverables, publication checks and coverage tracking. I briefed creative teams, photographers and videographers, acted as the day-to-day interface with agencies and external suppliers, and delivered post-campaign performance reports. This experience gave me a solid understanding of the UAE market, its audiences and the premium aesthetic that lifestyle brands expect.

Previously, over more than three years at EPONA in Lausanne, I ran the brand's editorial calendar and social media channels from planning to publication, handled community management including comments and direct messages, and coordinated the brand's presence at sponsored events with real-time content capture. I also planned e-mailing and direct-mail campaigns through Zoho, segmented customer databases, produced print and digital assets and tracked open rates, engagement and campaign results. Although I have not yet worked with SevenRooms, I am confident with CRM and reservation-style platforms and learn new tools quickly.

Content creation is where my professional and personal worlds meet: passionate about photography and video editing, I am comfortable shooting and editing mobile-first Stories, Reels and short-form videos, writing captions in a distinctive tone of voice and spotting the trends, sounds and cultural moments that fit a brand. Trilingual in French, English and Arabic, I can engage with guests, creators and media partners across the MENA region, and I thrive in fast-moving environments where organisation and quick reactions during live events make the difference.

I would be delighted to bring my creativity, commercial mindset and energy to Addmind's venues and brands, and to discuss how I can contribute to your marketing team. Thank you for considering my application. I look forward to hearing from you.

Yours faithfully,

Ghizlane Lachenal
